Our Young Stars program was established to support and encourage musically gifted children of our community. Our aim is to introduce these youngsters and their talented teachers to the public. Since 2008 the proceeds of this event has shared by the Children's Hospital in Boston, two orphanages in Armenia and the art program at the High School in Aregnadem, a village near the border of Turkey, which we at Amaras have adopted to support in rural Armenia. To be considered in a future program please visit us at AmarasOnline.com
