

# VOSH-ONE (OF New England)

Fall 07 Issue

## TESTIMONIALS

- **The Armenian mission was my first VOSH trip, and I was very interested to go as I had been to Armenia and knew how very poor most of the people are and that they could not afford medical treatment. VOSH could serve a great need there. I greatly enjoyed getting to be part of the team and seeing how VOSH operates. Also, I was appreciative that all of the team was so congenial and accepting of an antiquated 78 year old. Making new friends was a bonus of the trip.**
